About The Course

An ERP SAP (Enterprise Resource Planning System, Systems, Applications, and Products in Data Processing) course is designed to provide comprehensive training on SAP software, which is widely used by organizations to manage various business functions. Here's a brief description of what you can expect from an ERP SAP course:

1. ***Introduction to SAP*:** The course typically begins with an overview of SAP, its history, and its importance in modern businesses.
2. ***SAP Modules*:** SAP offers a wide range of modules for different business processes, such as Finance (FI), Controlling (CO), Sales and Distribution (SD), Materials Management (MM), S4HANA and more. The course may cover various modules depending on its focus.
3. ***Hands-on Training*:** Practical training is a crucial component of the course. Students often get access to a SAP system to practice and apply what they learn.
4. ***Configuration and Customization*:** Understanding how to configure and customize SAP to suit an organization's specific needs is a vital skill taught in these courses.
5. ***Integration*:** ERP SAP integrates different business functions, so the course usually covers how data flows between different modules and the importance of this integration.
6. ***Reporting and Analytics*:** Students learn to generate reports and analyze data using SAP's reporting tools.
7. ***Implementation and Project Management*:** Some courses may delve into the implementation of SAP in an organization and project management aspects, which are critical for SAP professionals.

Placement

“A great job is about great fit”

In this ERA of competitions, from an individual human being to an enterprise, even the whole world is dependent on technology, without upgrading skills according to industry needs. It becomes very difficult for any fresher to get a job. Even for a working professional, it is very difficult to change his/her job. We Eduork Pvt Ltd provide job-oriented pieces of training to upgrade technical skills and to walk parallelly with the industries. Eduork provides job-ready training to all its learners. Our team always focuses on the placement of our students. Because we are not only providing training but also build students skilled, dynamic and best choice for the organizations. On a regular basis, we also conduct personality development programs to prepare students job-ready. We believe in high-quality training because we know what organizations want.
